

To the patients of SOLA Prosthetics,

With the global onset of the COVID-19 virus we have decided to take precautions that will protect our patients and our employees. We put safety first and are doing everything we can to ensure that we are all protected.

We will be working remotely to follow federal and state guidelines and have developed a protocol when we see patients that not only protects our employees, but it also protects you. We are requiring a pre-screen of symptoms for both the employee and the patients. We are well stocked for sanitation and are following CDC guidelines for patient contact.

We will go above and beyond to protect you and continue to deliver the quality and service that SOLA is known for. We will not stop, we will persevere as a company, we will persevere as a country and will win this war against the COVID-19 virus.

At SOLA Prosthetics helping people is our passion!

Sincerely,
